Bond-1 Premier/Adhesive

**ONLY  
£21.95**

The Bond 1 system is a 5th generation total-etch bonding agent that provides high bond strength in a convenient single-bottle application. The versatile system bonds both direct and indirect restorations. Bond-1 creates a sealed surface with an intricate network of polymerized primers and unfilled resin. This results in a high bond strength to dentin of up to 31.0 MPa and a film thickness of only 8µm. Its ease of application - combined with its low film thickness - provides the ideal surface to bond to all types of restorative materials. 6ml.

Code: PEN01IAB

Bond-1 SF Solvent Free Syringe

**ONLY  
£32.50**

Bond 1 SF is a self-etch, one-coat bonding agent that is solvent-free - eliminating the need to air dry. This feature protects against sensitivity and prevents evaporation for stability and consistency. Bond-1 SF is designed for direct composite restorations and dual cure materials. Bond-1 SF provides optimal bond strengths up to 30,3 MPa in just three basic steps: apply evenly, rub for 20 seconds, and light cure. Solvent-free  
No air drying  
2 x 1ml syringes, 20-25 Gauge Flocked Needle Tips, Instructions  
Code: PEN03N

Simile Universal Composite

Simile is a universal composite that combines strength and esthetics for both anterior and posterior restorations. Its nano-hybrid formula has been independently proven to deliver surface smoothness for easy polishability, polish retention, and wear resistance with outstanding physical properties.

- Extraordinary shine - visible as soon as you handle it
- Low wear rates for beautiful long lasting restorations
- Soft, sculptable handling that is designed to resist sticking to the instrument
- Familiar shades are easy to use and save you time
- Convenient delivery system with your choice of unit dose or syringe

Breeze Self-Adhesive Resin Cement

**FROM  
£35**

Breeze Self-Adhesive Resin Cement is specifically designed to make the cementation of crowns, bridges, inlays, onlays and posts faster and easier by eliminating individual etching, priming, bonding, and mixing steps. Formulated with advanced resin technology, Breeze Self-Adhesive Resin Cement provides the strongest retention available in a self-adhesive cement with the quick and easy to use auto-mix delivery system. Upon application, Breeze Cement quickly goes to work to condition dentin, enamel, and the restoration all in one quick and simple step. By eliminating the etching, priming and bonding steps, both postoperative sensitivity and procedure time are drastically reduced improving peace of mind and freeing up precious chair time.

Code	Description
PEN97	Kit **
PEN97A	Translucent 4ml
PEN97B	A2 4ml
PEN97E	White Opaque 4ml

**Exceptional bond strength** – one of the most retentive self-adhesive auto-mix cements available  
**Dual-cure** – Light-cure or self-cure for maximum versatility  
**Convenient auto-mix delivery system** – direct and accurate one-step placement with minimal waste

\*\*Includes : (3x4ml syringes A2, 4ml syr translucent, 4ml syr opaque white, 3ml bottle silane, 40x Auto-mix Tips, 10x intra-oral/Automix Tips, Instructions

Alert Condensable Composite

Alert Condensable Composite, packed with over 10 years of independently validated clinical success, is a posterior restorative material designed to be a viable amalgam alternative. What sets Alert Condensable Composite apart from other composites is a proprietary chopped glass fiber filler that contributes to its amalgam-like handling characteristics and exceptional physical properties. Syringes - 4g, Compules - 15x 0.25g

- An esthetic composite that truly handles as easy as amalgam
- Good resistance to packing for forming proximal contacts
- Low wear rates of only 3.5µm per year ensure that your restorations last
- High strength and low shrinkage make this an ideal posterior composite
